Kamalesh A P

Summary

> *"Aspiring Full Stack Developer with strong frontend skills (HTML, CSS, JS, React) and a solid foundation in Java and DSA. Experienced in building real-world projects like a Transport Management System with admin and backend functionalities. Self-motivated, fast learner, and adaptable. Actively seeking internship opportunities to apply and expand my currrent skills in a professional setting and also open to exploring* ***diverse tech domains*** *beyond my current expertise to gain a broader understanding of the software ecosystem."*
